Benefits of CI/CD to Achieve, Build, and Deploy Automation for

UdaPeople Products

- Temitope Bamidele

Benefits of CI/CD TO US

1. It will help to reduce cost of fixing broken product by swiftly catching failures in before its push to production.

2. It will help to reduce cost by catching compile errors in code before its merge.

3. Help to avoid cost by detecting security vulnerabilities before product is shipped to production.

Benefits of CI/CD TO US

4. It helps to avoid cost by avoiding human errors in the process of setting up infrastructure for deployments

5. It helps to reduce cost by automating infrastructure cleanup after new feature is shipped

6. It helps to increase revenue by helping us to deliver values/features quickly to the market

Benefits of CI/CD TO US

7. It helps to protect revenue due to automated tests which reduces downtime from deployed errors/bugs

8. It helps to protect revenue due to its automated rollback abilities in case bug is ever deployed

Thank you for your time
